ABSTRAK

Selama ini Hotel siliwangi belum memiliki media informasi untuk menyampaikan ketersediaan kamar dan fasilitas kamar serta tarif kamar kepada wisatawan umum. Penyampaian informasi tersebut hanya disampaikan melalui bantuan resepsionis saat wisatawan datang ke hotel Siliwangi ataupun melalui telephone. Untuk itu sangatlah dibutuhkan sebuah system yang nantinya dapat menyampaikan informasi ketersediaan kamar, dan tarif kamar beserta fasilitas kamar sehingga dapat menguntungkan kedua belah pihak, pihak pemilik hotel. Pada tahapan pengembangan sistem menggunakan tahapan waterfall dengan tahapannya meliputi tahap analisis, tahap perancangan, tahap pemrograman, tahap pengujian, tahap implementasi. Sedangkan untuk alat bantu perancangan menggunakan United Modeling Language (UML) dimana gambarnya meliputi use case diagram, activity diagram, class diagram, user interface diagram.
