

CHAPTER IV

CONCLUSION AND SUGGESTION

Conclusion

Certificate of origin means approving commodities, which will be exported that the commodity is truly original from Indonesia and to get free facility in part or all entry tax that is usually applied by government. Based on the previous chapter, it can be concluded that Certificate of Origin Service Procedures are as follows:

1. Filling in the form of Certificate of Origin
2. Checking the completeness of the form and requirements
3. Typing date and name of company who will do the export
4. Signing and stamping the Certificate of Origin
5. Distributing the Certificate of Origin to the exporter

Suggestion

Based on the conclusion, the writer can give the following suggestions:

1. The writer suggests that in servicing the certificate of origin Department of Industrial and Trading should use technology like computer to make it easier.

- 2 The writer suggests that Industrial and Trading Official of Central Java should issues manual or guide book about how to fill Certificate of Origin for the Central Java exporter.
