

CHAPTER IV

CONCLUSION AND SUGGESTION

4.1 Conclusion

After the writer fulfills the description in the previous chapter, the writer takes several conclusions as follows:

1. Planning Programs at Maritime and Fishery Service Semarang City is made based on the perspective and mission to get the results in accordance with the target.
2. In making the planning programs, Maritime and Fishery Service Semarang City made an analysis towards strength, weakness, opportunity, and threat (SWOT analysis).
3. Planning Programs at Maritime and Fishery Service Semarang City consists of three programs, The programs are:

- a. The upgrading program for fishermen and farmer's prosperity.

This program consists of two activities as follows:

- 1) Giving technology aid to manage the fishery products;
- 2) Giving aid of funds for farmer and fishermen.

- b. The development program for fishery resources.

This program consists of seven activities as written bellow:

- 1) Developing fishery cultivation;
- 2) Rehabilitation and revitalization of coastal area;
- 3) Raising the fishermen knowledge and skill;

- 4) Efficiency of Economy Coast Community;
 - 5) Developing the community's fishpond;
 - 6) Giving exertion increasing licensing of fishery;
 - 7) Giving education and training for community to establish enterprise.
- c. The increasing program for media and infrastructure.

There are five activities in this program as follows:

- 1) Fish Greenhouse increasing and development;
- 2) Establishment and development of media and infrastructure of fishery production;
- 3) Upgrading and developing Fish Disembarkation;
- 4) Increasing media and infrastructure of fish production;
- 5) Spreading information of Maritime and Fishery potentials.

4.2 Suggestion

As an input which can probably be considered by Maritime and Fishery Service Semarang City, the writer gives the following suggestions:

1. It would be better if all of the staff at Maritime and Fishery Service Semarang City more appreciate the time and obey the rules of office, for example coming into work and leaving the office appropriate with the work schedule.
2. It would be better if Maritime and Fishery Service Semarang City increase the cooperation with the community.
