Halaman Judul .......................................................................................................................... ii
Persetujuan Laporan Tugas Akhir ......................................................................................... iv
Ucapan Terimakasih ........................................................................................................ viii
Abstrak ..................................................................................................................................... x
Daftar Isi ..................................................................................................................................... xi
Daftar Gambar ...................................................................................................................... xv
Daftar Tabel ............................................................................................................................ xxi

Bab 1 PENDAHULUAN ........................................................................................................ 1
  1.1 Latar Belakang Masalah ............................................................................................... 1
  1.1 Rumusan Masalah ........................................................................................................ 3
  1.2 Batasan Masalah .......................................................................................................... 3
  1.3 Tujuan Penelitian ........................................................................................................ 4
  1.4 Manfaat Penelitian ...................................................................................................... 4

Bab 2 TINJAUAN PUSTAKA .............................................................................................. 5
  2.1 Tinjauan Pustaka ......................................................................................................... 5
  2.2 Konsep Dasar Sistem Informasi dan Sistem Informasi Akademik ......................... 7
    2.2.1 Sistem ....................................................................................................................... 7
    2.2.2 Informasi .................................................................................................................. 8
    2.2.3 Sistem Informasi ...................................................................................................... 8
    2.2.4 Sistem Informasi Akademik .................................................................................. 9
  2.3 Konsep Dasar Enterprise Architecture .................................................................... 9
    2.3.1 Enterprise ............................................................................................................... 9
2.3.2 Architecture.................................................................9
2.3.3 Enterprise Architecture........................................10
2.4 Framework Zachman..............................................10
  2.4.1 Komponen Framework Zachman......................12
  2.4.2 Kelebihan dan Kelemahan Framework Zachman...15
  2.4.3 Artifak Pada Framework Zachman...................16
2.5 Unified Modeling Language (UML).........................19
  2.5.1 Use Case Diagram................................................19
  2.5.2 Activity Diagram..................................................20
  2.5.3 Sequence Diagram...............................................21
  2.5.4 Class Diagram......................................................22
2.6 Gantt Chart.................................................................23
2.7 Flowmap.................................................................24
2.8 Blueprint.................................................................25
Bab 3 METODE PENELITIAN...........................................26
  3.1 Metode Pengumpulan Data.................................26
  3.2 Metode Analisis.......................................................26
Bab 4 HASIL DAN PEMBAHASAN....................................31
  4.1 Profil Organisasi..................................................31
    4.1.1 Sejarah SMA PL Don Bosko Semarang............31
    4.1.2 Struktur Organisasi SMA PL Don Bosko Semarang..31
  4.2 Kolom Data (What).................................................32
    4.2.1 Perspektif Scope (Planning).........................32
    4.2.2 Perspektif Owner (Enterprise Model).............33
    4.2.3 Perspektif Designer (System Model)..............60
4.3 Kolom Proses (How).................................................................60
  4.3.1 Perspektif Scope (Planning)..................................................61
  4.3.2 Perspektif Owner (Enterprise Model).......................................62
  4.3.3 Perspektif Designer (System Model)........................................84
4.4 Kolom Jaringan (Where)..............................................................104
  4.4.1 Perspektif Scope (Planning).....................................................104
  4.4.2 Perspektif Owner (Designer)....................................................104
  4.4.3 Perspektif Designer (System Model)..........................................105
4.5 Kolom Orang (Who)....................................................................106
  4.5.1 Perspektif Scope (Planning).....................................................106
  4.5.2 Perspektif Owner (Enterprise Model)........................................107
  4.5.3 Perspektif Designer (System Model)..........................................107
4.6 Kolom Waktu (When)....................................................................123
  4.6.1 Perspektif Scope (Planning).....................................................123
  4.6.2 Perspektif Owner (Enterprise Model)........................................123
  4.6.3 Perspektif Designer (System Model)..........................................123
4.7 Kolom Motivasti (Why).................................................................124
  4.7.1 Perspektif Scope (Planning).....................................................124
  4.7.2 Perspektif Owner (Enterprise Model)........................................125
  4.7.3 Perspektif Designer (System Model)..........................................125
Bab 5 PENUTUP.....................................................................................127
  5.1 Simpulan......................................................................................127
  5.2 Saran...........................................................................................127
DAFTAR PUSTAKA..................................................................................128
