Rizky Rochim Syah Saleh
If you are not committed to preparation you are committed to failure.

(George Zalucki)

If you cannot fly then run, if you cannot run then walk, if you cannot walk then crawl, but whatever you do, you have to keep moving forward.

(Martin Luther King Jr)

People laugh at you because you are different, but you laugh at them because they are same. (Lady Gaga)

Do not chase people. Be yourself, do your own thing and work hard. The right people, the ones who really belong in your life will come to you, and stay.

(Will Smith)

It always seems impossible until it is done.

(Nelson Mandela)

Do not quit, suffer now and live the rest of your life as a champion.

(Muhammad Ali)
DEDICATION

This thesis is dedicated to:

1. God.

2. My parents: Rachmad Saleh B.Sc and Winarni.

3. All my family.

4. All my friends.

5. Everyone who wants to obtain knowledge especially in Translation.
ACKNOWLEDGEMENT

At this very best moment, I would like to pray to the Almighty God for giving me a great blessing during the writing of this thesis. This thesis would not have been finished without the helps and supports from many people.

Therefore, I would like to express my sincere appreciations to the following people who already gave me help or support in finishing this thesis:

1. Mr. Achmad Basari, S.S., M.Pd., Dean of Faculty of Humanities of Dian Nuswantoro University, and as my adviser, who encouraged me with valuable guidance and advice in completing this thesis.

2. Mrs. Haryati Sulistyorni, M.Hum., my inspiring lecturer, who gave me permission to conduct this study.

3. All lecturers at the Faculty of Humanities, Dian Nuswantoro University, who have taught, motivated and guided me during my academic years.

4. All staffs of Dian Nuswantoro University, for kindness and friendliness in helping me during my academic years.

5. My parents, my father and my mother, I am very grateful for all your supports and wishes.

6. All my best friends, I am very thankful for all your supports and helps.

I wish, this thesis would be useful for everyone who wants to gain the knowledge about translation, especially for the students of English Department of
Humanities Faculty, Dian Nuswantoro University. I know that this thesis still has some lacks due to my limited ability, and I welcome any comments and criticisms.

ABSTRACT

The thesis entitled Translation Techniques used in Lazy Daze in the Very Best of Donald Duck comics 7th Bilingual Edition. It has an objective, it is to find out what techniques are used in translating the utterances in Lazy Daze chapter in The Very Best of Donald Duck Comics 7th Bilingual Edition.

The researcher took sample of analysis from one of eight chapters which represents of almost all of techniques the researcher uses. The researcher also uses some theories from books and lectures, which are relevant to the object of the study. For the first step, researcher selected the bilingual comic because it is more effective to analyze translation techniques between SL and TL in Bilingual comic (need one comic book only) than two comics with the different languages, also this comic is quite popular among people. Second, the researcher read the comic and tried to understand the utterances. Third, the researcher started to select the utterances which are indicating some techniques.

From the analysis, it can be concluded, there are 140 utterances in Lazy Daze chapter in The Very Best of Donald Duck Comics 7th Bilingual Edition that have been analyzed based on translation techniques belonging to Molina and Albir’s theory. There are 13 of 16 translation techniques which are found in Lazy Daze chapter in The Very Best of Donald Duck Comics 7th Bilingual Edition. The mostly - used is Literal technique, and Generalization and Variation techniques are the least - used.

The researcher already found the mostly used translation technique is a literal translation, because as a translator realized that the target readers of the comic are children, and the literal technique is the easiest one for children to understand the translated text. This technique is used to translate a word or an expression word for word, meanwhile generalization and variation techniques are rarely used, then generalization technique is used to translate it by changing from a particular form into a general one. Since the translator prefers literal technique than generalization technique, she or he would translate the word rose into mawar using literal technique instead the word rose is translated into bunga by using generalization technique. Meanwhile, variation technique is rarely used, because the translator has to own a broader knowledge and an ability to manipulate some word, term, expression, gesture or intonation from SL into TL which can be understandable and appropriate for target readers.

Keywords: Translation technique, Utterances, Bilingual comic
1.1 Background of the Study

A language is very important for human beings. Human beings use language for communicating each other. They use language to express their ideas, feeling, and want in order to fulfill their need. Only human being can product language in the sentence. Language is also used by human beings to interact with each other, to exchange information in their social activities. Language can be found in a dialogue and becomes a very important method in communication and interaction among people. “When two or more people communicate with each other in speech, we can call the system of communication that they employ a code. In most cases that code will be something be may also want to call a language.” (Wardhaugh, 1992:1). The production of language can enable people to understand grammatically correct sentence which appear in one language. As people know, a construction in a sentence can build a language widely. Language description as well as in English can be done with a lot of reasons. The reasons are like socio-level of people who use that language. Language itself is created to be claimed as knowledge of something important. It may be a reading production which people like to dig a lot of information from their environments. That
information can also be enjoyed by the other societies who have different languages. People need language to transfer message from one to another, not only in spoken language, but also in written language. On the other hand in written language, transferring or changing from one state of form to another, to turn into one’s own or another language is called Translation by dictionary definition. Translation is basically a change of form. When people speak of the form of language, they are referring to the actull words, phrase, clauses, sentences, paragraph, etc which are spoken or written. These forms are referred to as the surface of a language. It is the structural part of language which is actually seen in print or heard in speech. In translation the form of the source language is replaced by the form of respector (target) language.

Many people need translation to do their activities in those aspects. Therefore, this requires highly qualified translator, who have good knowledge about the target language (TL) and the language they have to transform as source language (SL). In this study, the target language is Indonesian and the source language is English. To produce a good translation, a competent translator has to be able to understand the ideas and thought, including the message expressed in the source language and representing the target language. A good translator must be able to translate any kind of translation. One kind of translation that can be found is literary works. Literary works have many kinds of type and comic is one of them. Comics are included into literary works, so
literary translation is focused on this study. Landers (2001:106) states that “Translating children literature, the translator should have particular qualities”.

Translating process in grammatical features is a specific process because each language has its own division of the lexicon into classes such as nouns, verbs adjectives, etc. Different languages will have different sentence constructions. It will not always be possible to translate a source language sentence with a sentence in the target language. For instance, English-Indonesian has many sentence constructions which refer to actions. Most languages will prefer to express actions by comprehension process rather than transferring the meaning automatically. In the process of transferring in translation, the translator must understand the connection between Language and Culture. Language was something dynamic: it was an activity rather than a static inventory of items as the product of activity. Hornby (1988:40) says that “Language is an expression of culture and individuality of the speakers, who perceive the world through language”.

Translation can not only be applied in Literature or Linguistic text, but also can be applied in comic. Sturm (2002:8) says that “Comic is any image drawn in a certain cartoon style, for others it is any combination of image and text that can include children's books or flight safety cards, and some consider any sequence of images like cave paintings or Medieval tapestries comics while others associate the medium strongly with the genres of humor and fantasy”.
Comic is usually published in a form of picture series. This form can be printed in a book or any collecting paper such as in the newspaper. Comic is usually presented as a story of narrative in a sequence or event. The topic in comic can be so many themes because comic is a reading picture book read by people in all ages. Comic is usually written in order to give fun to the readers by the visual act of the pictures and the word balloons. The comic author may have a capability to draw the comic story in imaginary pictures to make the readers satisfied enough.

Furthermore, translation process needs to be done in a consistent condition. As a person who is involved in this process, that is a translator, he should be aware of various sentence constructions which may exist in translation works he is dealing with. It is actually fair when the different sentence constructions appear in the middle of proofreading process in doing a translation work. The reason is that when an author wrote the original version, the author’s writing style could be different from what the translator put out in the result of translation work. The writing style in the target language sentence should be followed by all grammatical, syntactic and idiomatic customs as well as the source language sentence that should seem to be fluent and skilled enough as the result of translation work.

This thesis is written down in order to create a translation technique analysis that is used in Lazy Daze in The Very Best of Donald Duck Comics 7th
The researcher is proud of the translator of *The Very Best of Donald Duck Comics 7th Bilingual Edition* because of his or her good abilities to show the comic in the different language and different utterance, that can keep the meaning into one understanding of the whole utterances in that comic among the readers. The researcher is very interested in analyzing translation technique on utterances applied in *The Very Best of Donald Duck Comics 7th Bilingual Edition* because the researcher has thought that bilingual comic book is usually published in contributing the way of learning English in Indonesia country. So, this contribution in education may attract people to learn English language because bilingual comic contains so much picture series to support the language learning. *The Very Best of Donald Duck Comics 7th Bilingual Edition* is actually the very best collection of Donald Duck stories from the first published in 1976. Donald Duck may have been a character that is being like by people in all ages until now. From the language point of view, Donald Duck comic may have different complex sentence structure in the contexts of its story idea, picture or culture that are also different between the two languages of the
bilingual comic. Also, by reading a bilingual comic, Indonesian people are easily understand how to use English in an appropriate way.

Bilingual comic and translation especially translation technique have a correlation to bring the message to target readers in a different way but still with the same message. By analyzing translation technique in bilingual comic, researcher would get the point of view as the translator why he or she used the technique considering the target readers.

Being a translator will not just read the whole comic he or she wants to translate and select the words then writes down his or her mind in another language he or she has mastered, but a translator sometimes has to think and select accurated words in the right way in order to make it sense.

For the detail analysis, the researcher will also look for the theory and logic explanation what is Translation Technique that the researcher used for translating utterances. The meaning shows that the capability of a translator is not just being a translator who transfers different words in one language into another directly. Understanding of Translation and Culture can help the translator in scanning the true intention from the author. At the end of the data analyzing, the reseacher will show the explanation of Translation Technique Analysis of utterances which were used in Lazy Daze in The Very Best of Donald Duck Comics 7th Bilingual Edition.
1.2 Statement of the Problem

The problem of this research can be stated as follows:

What techniques are used in translating the utterances in *Lazy Daze* chapter in *The Very Best of Donald Duck Comics 7th Bilingual Edition*?

1.3 Scope of the study

In analyzing the comic, the researcher needs to limit the scope of the problem in order to make easier the understanding of the problem. The study is focused on the utterances in *Lazy Daze* in *The Very Best of Donald Duck Comics 7th Bilingual Edition*.

1.4 Objective of the study

The objective of the study is:

To find out the translation techniques used in translating the utterances in *Lazy Daze* in *The Very Best of Donald Duck Comics 7th Bilingual Edition*.

1.5 Significance of the study

The results of the research can be a valuable contribution to:

1. Dian Nuswantoro University, especially for the English Department Students.
It is expected by reading this thesis, the students get knowledge about translation especially in Translation Technique analysis of utterances applied in *Lazy Daze* chapter in *The Very Best of Donald Duck Comics 7th Bilingual Edition*.

2. Everybody who reads this thesis. The result of this study is expected to be valuable for people who learn translation subject and everybody who decides to be a translator. They get more information about translation process doing and this proposal can be a reference for them.

3. The researcher himself. This thesis helps the researcher get a clear understanding about the translation technique analysis.

1.6 Thesis Organization

In order to present the thesis systematically in accordance with academic writing principles and to make it easy for the readers to understand the content, this research is presented in five chapters with their following organization.

Chapter I is introduction which explains background of the study, statement of the problem, scope of the study, objective of the study, and significance of the study and thesis organization.

Chapter II is review of related literature which consists of definition of translation, translation process, meaning in translation, potential problems in translation, types of translation, translating comic, and translation techniques.
Chapter III is research method which consists of research design, unit of analysis, source of data, technique of data collection, and technique of data analysis.

Chapter IV is the data analysis which presents translation techniques used in the utterances in *The Very Best of Donald Duck Comics 7th Bilingual Edition.*

Chapter V draws conclusion and suggestions based on the data analysis result.
CHAPTER II

REVIEW OF RELATED LITERATURE

This chapter explains about theories and ideas which are relevant to the problems of the study.

2.1 Definition of Translation

According to Brislin (1976:1) definition of translation is that:

Translation is the general term referring to the transfer of the thoughts and ideas from one language (SL) to another (TL), whether the language is written or in oral form; whether the languages have established orthographies or do not have such standardization or whether one or both languages is based on signs, as with sign languages of the deaf.

The form or style is not the main problem in translation. When we can understand the meaning of written text or spoken form, surely that we can deliver the message well. The result of translation is also the written message of statement in another language, a process of substituting a text in one language or a text in another language.

And the other quotation comes from Bell (1991:13) who says that “Translation is the abstract concept which encompasses both the process of translating and the product of that process”. From the the statement above, we can conclude that translation is a process of transfering the writer’s idea from source language into target language. The language here refers to the oral or written language. Translation does not only transfer the idea from different
language but it can be the same language. In Translation text, the important aspect is the naturalness on the the source language. So the reader is unaware that they are reading a translation text. To translate any words or sentences, it needs to be processed by certain way. The translation process can be seen bellow.

2.2 Translation Process

Doing a translation cannot be done instanly, replacing word from SL into TL, but there are some processess on translation. According to Suryawininata (1987:80) in figure 2.2 below, the process of translation consists of three steps, they are analyzing the source language text, transferring the meaning of the source language into the target language and restructuring.

1. The analyzing step can be done by reading the source language text on order to comprehend the substance of a text.

2. Transferring the meaning of the source language into the target language can be defined as evaluation and revision activity on creating a good equivalence.

3. Restructuring the equivalence meaning which are appropriate to the target language text (TLT), readers and listeners.
Translating process in grammatical features is a specific process because each language has its own division of the lexicon into classes such as nouns, verbs, adjectives, etc. Different languages will have different sentence constructions. It will not always be possible to translate a source language sentence with a sentence in the target language. For instance, English-Indonesian has many sentence constructions which refer to actions. Most languages will prefer to express actions by comprehension process rather than transferring the meaning automatically.
2.3 Meaning in Translation

Meaning is the most crucial thing in translation studies. It is useless for the translator if his work is not understood by target readership. So a translator should be a semanticist or text semanticist not words, sentence, and structure. The key concept of semantic translation here is textual meaning, and Larson (1989:3) relates it with translation definition “Translation is basically a transfer of meaning from SL to TL”.

Larson (1989: 38-39) categorizes meaning into three: (1) referential meaning – words that are referred to object, event, attribute, any relation touchable or imaginable, (2) linguistically contextual meaning – referential meaning composed in the semantic structure (3) situational meaning – meaning resulted in a particular situation of communication.

SL: The woman is sitting on the chair. She will chair the meeting

TL: Wanita itu sedang duduk di kursi. Dia akan memimpin rapat

Situational meaning is shown by the relationship of the writer and reader or speaker and interlocutor, time, place of communication takes place, social status, age, sex, cultural bound, image of communicators

Example: This lesson is killing me or this suitcase is killing me.

On the other hand in the translation process, the first thing to do is the total meaning of the source text, and the study or giving meaning of the words is to understand the study of those words which are related to the relation of the
meaning which are that words different from others. Palmer in Lusiana (2006:19) defines 4 types of meaning, they are:

1. Cognitive meaning

The meaning refers to the purpose: it is the component of a language that is very closely related to the language outside.

2. Ideational meaning

Is the meaning of that appears to cause the using of the word which has the concept.

3. Denotation meaning

The meaning of the group of the words based to the related to direct words and the language material outside.

4. Propositional meaning

The meaning of that appears when someone is limiting the definition from something.

The main topic of this analysis is translation techniques, the researcher discusses translation techniques in terms of form and meaning and in term of orientation on to author and reader to know deeper about translation that those explanations are significant.

2.4 Potential Problems in Translation

The goal of translation is to establish a relationship of equivalence between the source and the target text. Bell (1991:6) states that “Language is
different from each other and there is no absolute synonym of words between languages”. It means the target language does not express the same meaning as the one in the source language. The problems of non-equivalence at word level, problems in translating idiom, and problems in translating dialect sometimes occur in translating the source text.

Problems of non-equivalence at word level

1. Culture-specific concepts: The source language word may express a concept which is totally unknown in the target culture. The concept in question may be abstract or concrete, it may relate to religious belief, a social custom, or even a type of food. Different culture has different language; we can obviously notice the differences between cultures from the vocabularies. Baker (1992:21) says that words in the source language may express a concept, which is completely unknown in the target language.

2. The target language lacks of specific terms or Hyponym: If the source language has a variety of hyponyms, which have non equivalent in the target language, it can be a problem for translator. Languages usually tend to have general word’s or super ordinate but lack of specific words of hyponyms (Baker, 1992:231) the super ordinate word is flower, from specific term that flowers are rose, jasmine, orchid, lotus, etc for example. The problem approach when some of the specific terms are not used by the other culture. The specific terms like *daffodil* may not used by Indonesian.
3. The source language word is semantically complex: This is a common problem in translation. Words do not have to morphologically complex to be semantically complex, Bolinger and Sears in Lusiana (2004:24). In other words, a single word which consists of single morpheme can sometimes express a more complex set of meanings than a whole sentence. Language automatically develops very concise forms for referring to complex concepts if the concepts become important enough to be talked about often. We do not usually realize how semantically complex a word is until we have to translate it into a language which does not have an equivalent to it.

4. The source and the target language make different distinction in meaning: The target language may make more or fewer distinction in meaning than the source language. What one language regards as an important distinction in meaning another language may not perceive as relevant.

5. The used of loan words in the source text: The use of loan in the source text poses a special problem in translation. Quiet apart from their respective propositional meaning, loan words such au, fit chic, in English are often used for their prestige value, because they can add an air of sophistication to the text or its subject matter. This is often lost in translation because it is not always possible to find a loan word with the same meaning in the target language. Loan word also poses another problem for the unwary translation. False friend are words or expressions which have the same form in two or
more language but convey different meanings. Once a word or expression is borrowed into a language, we cannot predict or control its development or the additional meaning it might or might not take on.

2.5 Translating Comic

Comics (from the Greek κومικός, kōmikos "of or pertaining to comedy" from κῶμος - kōmos "revel, komos", via the Latin cōmicus) is a graphic medium in which images convey a sequential narrative. The term derives from the mostly humorous early work in the medium, and came to apply to that form of the medium including those far from comic. The sequential nature of the pictures, and the predominance of pictures over words, distinguishes comics from picture books, though there is some overlap between the two. Most comics combine words with images, often indicating speech in the form of word balloons, but pantomime strips. (http://www.answers.com/topic/comics/ retrieved on 19 October 2010)

Speech balloons (also speech bubbles, dialogue balloons, or word balloons) are a graphic convention used most commonly in comic books, strips, and cartoons to allow words (and much less often, pictures) to be understood as representing the speech or thoughts of a given character in the comic. There is often a formal distinction between the balloon that indicates thoughts and the one that indicates words spoken aloud: the bubble that conveys subjective thoughts is often referred to as a thought balloon. (Therra, 2010:5)

Translating comics belongs to the experience of translators in making sense of their environment where they live and stay. It needs cultural backgrounds to deal with the translation work. Furthermore, translators have to
make the analysis how the best transfer of sentence level, for example complex sentence which appears in the word balloons. This kind of act is to identify the clauses which build that complex sentence.

The combination between the images and the word balloons is the thing that translators have to be aware of. They must comprehend all the word balloons to make a good interpretation related to images of a comic. Then, the target language can be reached easily to bring the readers in understanding and enjoying the translated comic.

2.6 Translation Techniques

Translation Techniques which are used in this analysis are taken from Molina and Albir (2002:509-511) quoted in Rudi Hartono (2009:36-57), also the examples are taken from Rudi Hartono, they classify them into 16 Techniques:

1. Adaptation Technique

This technique changes a cultural element from SL into TL equally.

For example:

SL: Sincerely yours

TL: Hormat saya

2. Amplification technique

This technique transfers the meaning from SL into TL by making explanation more specifically, and it is possible occurring some Adding, Losing, and Paraphrasing meaning.
For example:

SL: Ramadhan

TL: Muslim month of fasting

3. Borrowing technique

This technique borrows some words or terms in another language, and it is applied into the TL without any change of spelling or pronunciation.

For example:

SL: Pistol

TL: Pistol

4. Calque technique

This technique is the same as borrowing technique. It translates SL into TL with modification in spelling or pronunciation in order to be understandable in TL.

For example:

SL: Ketchup

TL: Kecap

5. Compensation technique

This technique is used to introduce a SL element of information or stylistic effect in another place in the TL, because it cannot be replaced in the same place as in SL
For example:

SL: a: “Why don’t you just close the door?” she asked.

   b: “Me?” exclaimed Mrs. Albert Forrester, for the first time in her life regardless of grammar.

   b: ”Apa?” teriak Nyonya Albert Forrester, untuk pertama kali dalam hidupnya lupa pada tata bahasa.

In this case, Mrs. Forrester replied by using word”Me?” than word”I”, so it is said that she forgot the right grammar. If it is translated into Indonesian, word “Me” in this case, it will use Compensation technique, and the word “Me” would be translated into “Apa?” or “Apaan?”. It is because in Indonesian there is no equal term (Utterance pronominal) related to the case.

6. Description technique

This technique uses description to replace a term or expression with a description of its form or function.

For example:

SL: Cow-creamer

TL: Poci yang berbentuk sapi untuk tempat susu
7. Discursive Creation technique

This technique establishes a temporary equivalence that is totally unpredictable out of context.

For example: “Rumble Fish” is the title of film, and it is translated into Spanish to be “La ley de la calle”. “Rumble Fish” here does not have relation in meaning with “La ley de la calle”. “Rumble Fish” means (in Indonesian) ikan gemuruh, meanwhile “La ley de la calle” means (in Indonesian) jalur or lintasan jalan yang ramai.

8. Established Equivalence technique

This technique uses a term or expression that is recognized by dictionary or language in use as an equivalent in TL.

For example:

SL: They are as like as two peas

TL: Mereka sangat mirip

9. Generalization technique

This technique changes particular information from SLT into general information to TLT.

For example:

SL: When shot, she was apparently taking a walk

TL: Tampaknya dia terbunuh pada saat jalan jalan
The example above, word *shot* (tertembak) is generalized in TL to be *terbunuh* (killed)

10. Literal Translation technique

This technique is to translate a word or an expression word for word. It is the direct transfer of SL text into a grammatically and idiomatically appropriate TL text in which the translators’ task is limited to observe the adherence to the linguistic servitudes of the TL.

For example:

SL: She brings a flower

TL: Dia (perempuan) membawa setangkai bunga

The example above, word by word is translated into a correct order as its function.

11. Modulation technique

This technique changes point of view the meaning from SL into TL lexically and structurally.

For example:

SL: The dog bites a bone

TL: Sebuah tulang di gigi seekor anjing

SL: You (Man) are going to have a child

TL: Kamu akan segera menjadi ayah
The examples above change the subject into object and object into subject, also change point of view from subject into another point of view.

12. Particularization technique

This technique is to use a more precise term, it is the counter side of Generalization technique.

For example:

SL: “I found this flower over there”
TL: “Aku menemukan mawar ini disebelah sana”

13. Reduction

This technique reduces some information elements in SL, and transfers it into a new form, but it still has main information from SL.

For example:

SL: The proposal was rejected and repudiated
TL: Usulnya ditolak

The example above changes phrase rejected and repudiated from SL into a new form (word) become ditolak, and there is a reduction process in this translation process because word rejected and word repudiated have same negative meaning, and it can be replaced into only one lexical in TL to be ditolak.

14. Substitution technique

This technique is to change linguistic elements such as intonation and gestures or vice versa, this always happens in Interpreting.
For example: When someone is nodding, it is indicated of agreement, and if Japanese bows in front of someone else, it is indicated of greeting (Hello) or Thanking (Thank you)

15. Transposition technique

This technique changes a grammatical category from SL into different grammatical category in TL.

For example:

SL: She has a lot of fans, because of her beauty

TL: Dia memiliki banyak penggemar, karena dia cantik

The example above shows word beauty as a Noun in SL, and it is translated into cantik as an Adjective in TL, it changes grammatical category from Noun form in SL into Adjective form in TL.

16. Variation technique

This technique is to change linguistic or paralinguistic elements such as gesture and intonation that effect aspects of linguistic variation (change of textual tone, style, social, social dialect, etc) based on target reader of the text.

For example:

SL: “Shit! How dare you!”

TL: “Kurang ajar! Berani beraninya kamu!”
The example above changes the style meaning for adults from word *Shit* (SL) into *Kurang ajar* (TL) that is more polite and acceptable for children or others (target readers), than it is translated into harsh one such as *Brengsek* in TL.
CHAPTER III
RESEARCH METHOD

Research method is a kind of systematic work plan in order to make its main purpose easier to achieve. This method in this research is chosen by considering its appropriateness the research object. This research method is arranged based on the problem analyzed and the main purpose of the research. The research method consists of research design, unit of analysis, source of data, technique of data collection, technique of data analysis.

3.1 Research Design

The research design to analyze this problem was qualitative method because the process brought order, structure and meaning to the mass of collected data that described Translation Techniques used in Lazy Daze in The Very Best of Donald Duck Comics 7th Bilingual Edition.

According to Marshall and Rossman (1995:111) “Qualitative data analysis is a search for general statements about relationships among categories of data.” It is a messy, ambiguous, time-consuming, creative, and fascinating process. It does not proceed in a linear fashion; it is not neat.
In qualitative research, the sampling technique of choosing samples by limitation the number of and kind of the source data that will be used in a research as stated by Sutopo (2002:54-55).

According to Arikunto (2002:7) if the number of subject is less than 100, it is better to take the subject entirely as sample. Furthermore, if the population has a big number the researcher can take 10%-15% or 20%-25% or more subject sample. On choosing the data, the researcher adapted Arikunto’s way of counting the utterances to be collected.

3.2 Unit of analysis

The units are analyzed in this research are utterances used in *Lazy Daze* in *The Very Best of Donald Duck Comics 7th Bilingual Edition*, and it has 128 pages. The source language (SL) is English and the target language (TL) is Indonesian.

3.3 Source of data

In this study the researcher uses *The Very Best of Donald Duck Comics 7th Bilingual Edition*, the comic has two languages (English and Indonesian), because the data are taken from *The Very Best of Donald Duck Comics 7th Bilingual Edition*, and the comic has eight chapters, the researcher took sample of analysis (*Lazy Daze* chapter) from one of eight chapters which represents of
almost all of techniques the researcher uses. The researcher also uses some theories from books and lectures, which are relevant to the object of the study.

3.4 Technique of data collection

The researcher used the data related to the subject of this researcher is library study. The researcher applies technique of data collection with the following steps:

1. Selecting the Bilingual comic book entitled *The Very Best of Donald Duck Comics 7th Bilingual Edition*, because it is more effective to analyze translation techniques between SL and TL in Bilingual comic (need one comic book only) than two comics with the different languages, also this comic is quite popular among us.

2. Reading the comic several times to make it easier to understand.

3. Selecting the utterances that are indicating translation techniques on them.

3.5 Technique of data analysis

This research is analyzing the Translation Techniques applied in *Lazy Daze* in *The Very Best of Donald Duck Comics 7th Bilingual Edition*. The analysis of data is conducted by using the following steps:

1. Classifying the analysis of data in a table based on the technique.

   Each utterance in the comic was classified according to one of translation
techniques, and each utterance should be included in one of the techniques.

2. Explaining.

After the utterances were being classified into one of the techniques, then there are some explanations why they were classified or included into one of the techniques.

3. Drawing conclusions and giving some suggestions.
CHAPTER IV
DATA ANALYSIS

This chapter presents the data analysis in order to present the result of the research. The data analysis covers the finding of the translation technique and the discussion of the finding.

4.1 Findings

Table 4.1 shows the finding of translation techniques based on all utterances used in the one of chapters (Lazy Daze chapter) in The Very Best of Donald Duck Comics 7th Bilingual Edition which represents almost all of techniques. The theory of translation techniques used belongs to Molina and Albir (2002: 509)

Table 4.1 Translation techniques used in utterances in Lazy Daze chapter in The Very Best of Donald Duck Comics 7th Bilingual Edition.

<table>
<thead>
<tr>

</tr>
<tr>
<td>4.</td>
<td>Discursive Creation</td>
<td>11</td>
<td>7.85%</td>
</tr>
</tbody>
</table>
According to the table 4.1 above, it can be seen that the translation techniques used in *Lazy Daze* in *The Very Best of Donald Duck Comics 7th Bilingual Edition* are description, literal, modulation, discursive creation, borrowing, amplification, substitution, calque, reduction, transposition established equivalence, generalization, and variation.

From the table 4.1, the researcher found 68 numbers of data which are included into literal translation. It can be concluded that literal translation has highest frequency of usage in *Lazy Daze* in *The Very Best of Donald Duck Comics 7th Bilingual Edition*, most of utterances are translated like their literal meanings and they can also be translated word for word, also as a translator realized that the target readers of the comic are children, and literal technique is the easiest one for
children to understand the translated text. The next is calque, there are 16 numbers of data which are found in *Lazy Daze* in *The Very Best of Donald Duck Comics 7th Bilingual Edition*. And then, the researcher finds discursive creation and borrowing translation techniques which have the high frequency, because they are 11 numbers of data per each technique.

Furthermore, descriptions, modulation, amplification, substitution, reduction, transposition, established equivalence, generalization, and variation have low frequencies of usage, because it only reaches equal-less than 5%.

On the analysis, the researcher gives the further explanation why those translation techniques are being applied in utterances in *Lazy Daze* chapter in *The Very Best of Donald Duck Comics 7th Bilingual Edition* according to its function.

### 4.2 Discussion

The researcher finds that the translator uses thirteen Molina and Albir’s translation techniques in *Lazy Daze chapter* in *The Very Best of Donald Duck Comics 7th Bilingual Edition*. They are description, literal, modulation, discursive creation, borrowing, amplification, substitution, calque, reduction, transposition, establish equivalent, generalization, and variation.

#### 4.2.1 Description

This technique uses description to replace a term or expression with a description of its form or function.
Excerpt 1

SLT: I know you like to relax, unca Donald! But soon you’ll never have to leave the Hammock at all! (Utterance 1)

TLT: Aku tahu paman suka bersantai! Tapi segera paman tidak akan meninggalkan tempat tidur gantung sama sekali! (Utterance 1)

The source text above is translated into the target text by using description technique. For instance, the word Hammock in Indonesian is not well-known, and then the translator tried to describe what Hammock is by translating it into Indonesian and describing it according to its function and its form into tempat tidur gantung in order to the target reader especially Indonesian get the idea what Hammock is.
4.2.2 Literal

This technique is to translate a word or an expression word for word. It is the direct transfer of SL text into a grammatically and idiomatically appropriate TL text in which the translators’ task is limited to observe the adherence to the linguistic servitudes of the TL.

Excerpt 2

For instance, the SLT element information is translated word for word Unca Donald is the laziest person we know! Into Paman Doland adalah orang yang paling malas yang kita tahu! The translator translated it word by word by observing cognitive meaning which has very closely related to the target language in this case is...
Indonesian and it looked like the translator did not find one of the potential problems in translation which can change the meaning from word by word on this text.

**Excerpt 3**

SLT: Correction! Old-Fashioned American Indian ghosts! (Utterance 48)
TLT: Perbaikan! Hantu suku Indian Amerika kuno! (Utterance 48)

The source text above is translated into the target text by using literal technique. For instance, the SLT element information is translated word for word Correction! Old-Fashioned American Indian ghosts! Into Perbaikan! Hantu suku Indian Amerika kuno!. The translator translated it word by word by observing cognitive meaning which has very closely related to the target language in this case is Indonesian and it looked like the translator did not find one of the potential problems in translation which can change the meaning from word by word on this text.
Excerpt 4

SLT: When unca Donald sent that electric shock into the house it must’ve awakened the spirits! (Utterance 63)

TLT: Ketika paman Donald mengirim tegangan listrik ke dalam rumah, tegangan itu pastilah membangunkan para arwah! (Utterance 63)

The source text above is translated into the target text by using literal technique. For instance, the SLT element information is translated word for word When unca Donald sent that electric shock into the house it must’ve awakened the spirits! Into Ketika paman Donald mengirim tegangan listrik ke dalam rumah, tegangan itu pastilah membangunkan para arwah!. The translator translated it word by word by observing cognitive meaning which has very closely related to the target language in this case is Indonesian and it looked like the translator did not find one of the potential problems in translation which can change the meaning from word by word on this text.
Excerpt 5

SLT: The place is haunted! (Utterance 88)
TLT: Tempat ini dihantui! (Utterance 88)

The source text above is translated into the target text by using literal technique. For instance, the SLT element information is translated word for word The place is haunted! Into Tempat ini dihantui!. The translator translated it word by word by observing cognitive meaning which has very closely related to the target language in this case is Indonesian and it looked like the translator did not find one of the potential problems in translation which can change the meaning from word by word on this text.
Excerpt 6

SLT: If we could lose the ghosts, maybe for once in my life I’d have some gumption!

(Utterance 96)

TLT: Kalau kita bias menghilangkan hantu hantu itu, mungkin untuk sekali seumur hidup aku akan punya semangat bekerja! (Utterance 96)

The source text above is translated into the target text by using literal technique. For instance, the SLT element information is translated word for word If we could lose the ghosts, maybe for once in my life I’d have some gumption! Into Kalau kita bias menghilangkan hantu hantu itu, mungkin untuk sekali seumur hidup aku akan punya semangat bekerja!. The translator translated it word by word by observing cognitive meaning which has very closely related to the target language in this case is Indonesian and it looked like the translator did not find one of the potential problems in translation which can change the meaning from word by word on this text.
4.2.3 Modulation

It is the technique to change the point of view, focus or cognitive category in relation to the ST; it can be lexical or structural.

Excerpt 7

SLT: But you’ve already over loaded the circuits! It’s an accident waiting to happen! (Utterance 12)

TLT: Tapi beban listriknya sudah kelebihan! Bakal ada kecelakaan, deh! (Utterance 12)

The source text above is translated into the target text by using modulation technique. For instance, but you’ve already over loaded the circuits, this clause is translated into Indonesian into Tapi beban listriknya sudah kelebihan. The translator changed the point of view from SLT into TLT by switching the object on source language text the circuits which means tegangan listrik or beban listrik and switch it as a subject on target language text.
SLT: You can’t beat the old fishing hole for tranquility! Well? (Utterance 137)

TLT: Ketenangan tempat memancing ini ngga ada yang mengalahkan! Bagaimana? (Utterance 137)

The source text above is translated into the target text by using modulation technique. For instance, *You can’t beat the old fishing hole for tranquility!*, this sentence is translated into Indonesian into *Ketenangan tempat memancing ini ngga ada yang mengalahkan!*. The translator changed the point of view from SLT into TLT by switching the adverbial on source language text, the word *tranquility* which means *ketenangan* or *kedamaian* and switches it as a subject on target language text.

4.2.4 Discursive creation

A technique of translation process to establish a temporary equivalence that is totally unpredictable out of context.
Excerpt 9

SLT: Holy Cannoli! Electricity’s traveling back through the power cord like a crazy gopher! (Utterance 19)

TLT: Ya ampun! Listriknya bergerak mundur lewat kabel sperti tikus tanah gila! (Utterance 19)

The source text above is translated into the target text by using discursive creation technique. For instance, the English expression of Holy Cannoli is translated into Ya ampun, the phrase Holy Cannoli means Cannoli suci, but the translator translated it into Ya ampun which indicates shocked expression in Indonesian based on the sequence of the story. The problem of non equivalent occurs on this text which the translator tried to transfer the English expression into Indonesian expression. It is about habit or culture expression, but this theory is an application of discursive creation which is totally unpredictable out of context.
Excerpt 10

Page 90 balloon 32

SLT: There! It took a little elbow-grease, but the floor is spic-and-span at last! (Utterance 32)

TLT: Nah! Meskipun pontang panting, akhirnya lantainya bersih! (Utterance 32)

The source text above is translated into the target text by using discursive creation technique. For instance, the phrase a little elbow-grease is translated into pontang panting. A little elbow means siku kecil, and grease means minyak pelumas. It is totally unpredictable and out of context, but the translator tried to predict the meaning to be pontang panting by observing the sequence of the character that is doing housework.
Excerpt 11

SLT: Great honk! There’s another one having a leisurely soak in the tub! (Utterance 46)

TLT: Ya ampun! Ada satu lagi yang sedang santai berendam di bak mandi! (Utterance 46)

The source text above is translated into the target text by using discursive creation technique. For instance, the English expression of Great honk is translated into Ya ampun, the phrase Great honk means Klakson tinggi, but the translator translated it into Ya ampun which indicates shocked expression in Indonesian based on the sequence of the story. The problem of non equivalent occurs on this text which the translator tried to transfer the English expression into Indonesian expression. It is about habit or culture expression, but this theory is an application of discursive creation which is totally unpredictable out of context.
4.2.5 Borrowing

It is the technique to take a word or expression in the SL straight from another language in TL. It can be pure without any change of spellings or pronunciation.

Excerpt 12

Page 90 balloon 39

SLT: Am I going nuts? The sandwich is disappearing right before my eyes! (Utterance 39)

TLT: Aku mau gila ya? Sandwichnya menghilang tepat didepan mataku! (Utterance 39)

The source text above is translated into the target text by using borrowing technique. For instance, the word sandwich in SLT was left un-translated in TLT because sandwich in both languages are well-known as a food from bread which has a layer from vegetables, meat, or cheese, so the translator did not change the word sandwich into Indonesian term.
Excerpt 13

Page 95 balloon 86

SLT: It makes sense! I’ll bet the supernatural vibes around here have been affecting him all along! (Utterance 86)

TLT: Masuk akal! Aku yakin getaran supernatural di sekitar sini sudah mempengaruhinya! (Utterance 86)

The source text above is translated into the target text by using borrowing technique. For instance, the word supernatural in SLT was left un-translated in TLT because supernatural in both languages are well-known as something which is mysterious or about spirits, so the translator did not change the word supernatural into Indonesian term.
Excerpt 14

SLT: Merely point my spook detector at a given area! The alarm will sound if otherworldly beings are present! (Utterance 130)

TLT: Cukup dengan mengarahkan detektor hantuku ke area yang dituju! Alarm akan berbunyi jika ada mahluk gaib! (Utterance 130)

The source text above is translated into the target text by using borrowing technique. For instance, the word alarm in SLT was left un-translated in TLT because alarm in both languages are well-known as a sign, sound, or noise of danger or notice, so the translator did not change the word alarm into Indonesian term.

4.2.6 Amplification

This technique transfers the meaning from SL into TL by making explanation more specifically, and it is possible occurring some Adding, Losing, and Paraphrasing meaning.
Excerpt 15

SLT: Hey! What’s with unca Donald’s chair? It wasn’t extended a minute ago! (Utterance 33)

TLT: Hei! Kursi paman Donald kenapa nih? Semenit lalu kursinya nggak terbuka panjang! (Utterance 33)

The source text above is translated into the target text by using amplification technique. For instance, word extended based on word extend which means in Indonesian memperpanjang or memperluas, but in this utterance, word extended means terbuka panjang. The translator tried to make some further explanation about word extended by giving additional information with word terbuka on TLT into terbuka panjang in order to be compatible with what is going on with the chair in the sequence.
Excerpt 16

Page 98 balloon 115

SLT: But it’s only five in the morning! (Utterance 115)

TLT: Tapi sekarang baru jam 5 pagi! (Utterance 115)

The source text above is translated into the target text by using amplification technique. For instance, word five based on word five o’clock which means in Indonesian jam lima, but in this utterance, it is only word five and it is not followed by word o’clock which is still ambiguous. The translator tried to make some further explanation about word five by giving additional information with word jam on TLT into jam 5 in order to make it acceptable.

4.2.7 Substitution

This technique is to change linguistic elements such as intonation and gestures or vice versa.
Excerpt 17

Page 101 balloon 153

SLT: That! (Utterance 153)

TLT: Itu! (Utterance 153)

The source text above is translated into the target text by using substitution technique. For instance, the word groan is translated into hu-uh in Indonesian which indicates intonation from the characters which are complaining in Indonesian way as the target language.
Excerpt 18

Page 103 balloon 163

SLT: Yippee! (Utterance 163)

TLT: Hore! (Utterance 163)

The source text above is translated into the target text by using substitution technique. For instance, the word Yippee is translated into hore! in Indonesian which indicates intonation of happy expression in Indonesian way as the target language.
4.2.8 Calque

This technique is the same as borrowing technique. It translates SL into TL with modification in spelling or pronunciation in order to be understandable in TL.

Excerpt 19

SLT: We’ve got a first class mystery on our hands! (Utterance 51)
TLT: Di tangan kita ini ada misteri kelas wahid (Utterance 51)

The source text above is translated into the target text by using calque technique. For instance, the word mystery is translated into misteri. The translator tried to make the understandable pronunciation of mystery for Indonesian in which turns into misteri. The translator also does not change the real meaning because mystery is something which has a question and a secret. Both languages have same assumption about what mystery is, the differences are only on pronunciation and spelling.
Excerpt 20

SLT: After a hard day’s work, we came here to kick back, stretch out and relax! (Utterance 78)

TLT: Setelah bekerja keras, kami ke sini untuk beristirahat, meluruskan kaki dan rileks! (Utterance 78)

The source text above is translated into the target text by using calque technique. For instance, the word relax is translated into rileks. The translator tried to make the understandable pronunciation of relax for Indonesian in which turns into rileks. The translator also does not change the real meaning because relax is about to rest your body and mind. Both languages have same assumption about what relax is, the differences are only on pronunciation and spelling.
Excerpt 21

SLT: He’s not budging! I’ve got an idea (Utterance 89)

TLT: Dia tidak bergerak! Aku punya ide (Utterance 89)

The source text above is translated into the target text by using calque technique. For instance, the word *idea* is translated into *ide*. The translator tried to make the understandable pronunciation of *idea* for Indonesian in which turns into *ide*. The translator also does not change the real meaning because *idea* is a thought. Both languages have same assumption about what *idea* is, the differences are only on pronunciation and spelling.
SLT: Good! Good! Don’t leave a speck of dirt in the windows! I’ll straighten up the garage! (Utterance 117)

TLT: Bagus! Bagus! Jangan sisakan sedikit pun kotoran di jendela! Aku akan membersihkan garasi! (Utterance 117)

The source text above is translated into the target text by using calque technique. For instance, the word garage is translated into garasi. The translator tried to make the understandable pronunciation of garage for Indonesian in which turns into garasi. The translator also does not change the real meaning because garage is a place for saving vehicles, such as car, motorcycle, bike, scooter, etc. Both languages have same assumption about what garage is, the differences are only on pronunciation and spelling.
Excerpt 23

SLT: You’re a calming influence on unca Donald! We’ve had enough of his fanatical energetic ways! (Utterance 149)

TLT: Kalian memberi pengaruh ketenangan kepada paman Donald! Kami sudah ngga tahan dengan jalan hidupnya yang sangat enerjik! (Utterance 149)

The source text above is translated into the target text by using calque technique. For instance, the word energetic is translated into enerjik. The translator tried to make the understandable pronunciation of energetic for Indonesian in which turns into enerjik. The translator also does not change the real meaning because energetic is a full of enthusiasm feeling. Both languages have same assumption about what energetic is, the differences are only on pronunciation and spelling.

4.2.9 Reduction

This technique reduces some information elements in SL, and transfers it into a new form, but it still has main information from SL.
Page 95 balloon 93

SLT: Listen to this! You won’t believe your ears (Utterance 93)

TLT: Dengar nih! Paman pasti tidak akan percaya (Utterance 93)

The source text above is translated into the target text by using reduction technique. For instance, the phrase believe your ears is translated into percaya in Indonesian, and there is an ellipsis process when transferring the idea from SLT into TLT. The translator reduced words your ears from phrase believe your ears because the word believe itself already has a meaning percaya in Indonesian without followed by words your ears.
Excerpt 25

SLT: Yawn! Tell her to make it snappy! I’m starting to feel a mite lazy again! (Utterance 100)

TLT: Hoahm! Bilang dia supaya cepat! Aku mulai merasa malas lagi! (Utterance 100)

The source text above is translated into the target text by using reduction technique. For instance, the phrase a mite lazy is translated into malas in Indonesian, and there is an ellipsis process when transferring the idea from SLT into TLT. The translator reduced words a mite from phrase a mite lazy because the word lazy itself already has a meaning malas in Indonesian without followed by words a mite.

4.2.10 Transposition

This technique changes a grammatical category from SL into different grammatical category in TL.
Excerpt 26

Page 92 balloon 57

SLT: When he first came here the whole area was wilderness! What’s it say?  
(Utterance 57)

TLT: Waktu dia pertama kali datang seluruh daerah ini masih liar! Apa katanya?  
(Utterance 57)

The source text above is translated into the target text by using transposition technique. For instance, the word wilderness is translated into masih liar in Indonesian. The translator changed the grammatical category of wilderness, word wilderness comes from word wild which is an adjective, and morpheme er plus ness which becomes a noun category into masih liar in Indonesian which is an adjective category.

4.2.11 Established Equivalence

This technique uses a term or expression that is recognized by dictionary or language in use as an equivalent in TL.
SLT: We’ve got to confront those restless spooks face-to-face! (Utterance 64)
TLT: Kita harus menghadapi langsung para hantu tak kenal lelah itu! (Utterance 64)

The source text above is translated into the target text by using established equivalence technique. For instance, the phrase face-to-face is translated into langsung. Actually phrase face-to-face is recognized enough by dictionaries of both languages, even if the Indonesian reader who does not know the meaning can predict phrase face-to-face is, face means muka or wajah, to means kepada, untuk, or ke, face (again) means muka or wajah, the Indonesian reader will think muka ke muka, it means berhadapan or secara langsung. In SLT above face-to-face is followed by a verb confront, and usually in Indonesian word menghadapi is automatically followed by word langsung as its adverbial.
Excerpt 28

SLT: Take care of the clutter in the attic! If you want me, I’ll be washing the car!

(Utterance 118)

TLT: Bereskan rongsokan rongsokan di loteng! Kalau perlu aku, aku sedang mencuci mobil! (Utterance 118)

The source text above is translated into the target text by using established equivalence technique. For instance, the phrase take care is translated into bereskan. Actually phrase take care is recognized enough by dictionaries of both languages, in Indonesian it can be mengurus, hati hati, or merawat. The translator predicted the usage of phrase take care to be bereskan based on the sequence above, the characters are cleaning their house, so the translator chosen the near meaning.
4.2.12 Generalization

This technique changes particular information from SLT into general information to TLT.

Excerpt 29

Page 98 balloon 119

SLT: Yes! Scour the driveway! I'll mow the lawn! We're the family! We do these things together! (Utterance 119)

TLT: Ya! Bersihkan seluruh jalanan! Aku akan potong rumput! Kita kan keluarga! Kita kerjakan ini bersama sama! (Utterance 119)

The source text above is translated into the target text by using generalization technique. For instance, word scour means gosok or menggosok in Indonesian, but the translator translated it into bersihkan in Indonesian. It transforms from particular form in English (scour) into general form in Indonesian (bersihkan).
4.2.13 Variation

This technique is to change linguistic or paralinguistic elements such as gesture and intonation that effect aspects of linguistic variation (change of textual tone, style, social, social dialect, etc) based on the target reader of the text.

Excerpt 30

Page 102 balloon 160

SLT: You mean you had a psychosomatic episode? (Utterance 160)

TLT: Maksudnya paman mengalami gejala stress mental saja? (Utterance 160)

The source text above is translated into the target text by using generalization technique. For instance, phrase psychosomatic episode, in medical term it means any illness in which physical symptoms, produced by the action of the unconscious mind. Because this technique changes a textual tone, style, social, social dialect, etc based on the target reader of the text, and due to the target reader of the text a kid, so it is translated into gejala stress mental which is more simple and understandable for kid.
CHAPTER V
CONCLUSION AND SUGGESTION

5.1 Conclusion

The conclusion is based on the data analysis in chapter IV. From the analysis, it can be concluded, there are 140 utterances in *Lazy Daze* chapter in *The Very Best of Donald Duck Comics 7th Bilingual Edition* that have been analyzed based on translation techniques belonging to Molina and Albir’s theory. The conclusion can be stated as follows:

There are 13 of 16 translation techniques which are found in *Lazy Daze* chapter in *The Very Best of Donald Duck Comics 7th Bilingual Edition*. There are 3 utterances (2,14%) for description technique, 68 utterances (48,56%) for literal technique, 3 utterances (2,14%) for modulation technique, 11 utterances (7,85%) for discursive creation technique, 11 utterances (7,85%) for borrowing technique, 6 utterances (4,28%) for amplification technique, 2 utterances (1,42%) for substitution technique, 16 utterances (11,42%) for calque technique, 8 utterances (5,71%) for reduction technique, 2 utterances (1,42%) for transposition technique, 8 utterances (5,71%) for established equivalence technique, 1 utterance (0,71%) for generalization technique, and 1 utterance (0,71%) for variation technique.

The researcher already found the mostly used translation technique is a literal translation, because as a translator realized that the target readers of the comic are children, and the literal technique is the easiest one for children to
understand the translated text. This technique is used to translate a word or an expression word for word, meanwhile generalization and variation techniques are rarely used, then generalization technique is used to translate it by changing from a particular form into a general one. Since the translator prefers literal technique than generalization technique, she or he would translate the word rose into mawar using literal technique and instead, the word rose is translated into bunga by using generalization technique. Meanwhile, variation technique is rarely used, because the translator has to own a broader knowledge and an ability to manipulate some word, term, expression, gesture or intonation from SL into TL which can be understandable and appropriate for target readers.

The usage of these translation techniques will so much help the translator in facing with the problem of translation. Translation techniques will also help the translator to make the utterances in comic understandable and meaningful to the target readers.

5.2 Suggestions

The researcher would like to give some suggestions:

1. The readers who are interested in translation study and want to enrich their knowledge about the translation techniques in utterances of comic or some other field related to translation, they would comprehend the text before doing other research dealing with the translation.
2. Dian Nuswantoro University and especially for English Department students to use this thesis as a reference when they are dealing with a research related to the translation study, especially translation technique. Also this thesis gives them an image of how the applications of translation technique on comic looks like.

3. The next researcher, this thesis can be a reference for anyone who wants to do translation work on bilingual comics.

APPENDIX 2

Lazy Daze chapter in The Very Best of Donald Duck Comics 7th Bilingual Edition

Page 87 balloon 1 - 7
8. Meanwhile, the lawn goes unmowed...
9. Dishes pile up in the sink!
10. ...and stacks of bills wait to be paid!
11. All in good time! Right now, I'm gonna whip up a juice in the blender!
12. But you've already overloaded the circuits! It's an accident waiting to happen!

13. Accident, shmackincident! I'm thirsty!
14. Whirrrr!
15. Yoicks!
16. Fritz!
17. Snap!

13. Kecelakaan, kecelakaan apanya?! Aku haus!

19. Holy cainou! Electricity's traveling back through the power cord like a crazy gopher!
21. Right into the house!
22. Heaps up! She's gonna blow!

19. Ya ampun! Listriknya bergerak mundur lewat kabel seperti tikus tanah gila!
21. Tepat ke dalam rumah!
22. Awa! Rumahnya akan meledak!
25. NICE GOING, UNCA DONALD! YOU JUST BLEW EVERY FUSE IN THE HOUSE!

26. NOW THERE'S A LOT MORE MESS OVER THE MESS!

27. NO PROB! I'LL TAKE CARE OF IT WHEN I GET AROUND TO IT!

28. WHAT CHOICE DO THE BOYS HAVE? IT'S UP TO THEM TO CLEAN THE HOUSE...

30. SOUNDS SO GOOD TO ME! WHEN I'M DONE, I'LL GO MAKE A SANDWICH!

28. Pilih apalagi yang dipunyai anak-anak itu? Tentangtung merekalah untuk membereskan rumah itu...

29. DEWEY AND I WILL STRAIGHTEN UP THE LIVING ROOM! YOU TAKE THE KITCHEN!

30. Kedengarannya bagus untukku! Kalau aku selesai, aku akan membuat sandwich!
31. But as the kids work, strange things begin to happen...
32. There! It took a little elbow-grease, but the floor is spic-and-span at last!
33. Hey! What's with Linca Donald's chair? It wasn't extended a minute ago!
34. Beats me! It's almost as if someone we can't see is having a lounge!
35. Whammo! A home run!
36. Yipe! The TV came on all by itself! What gives?
37. Okay! My job's done! Now... uh?
38. Whoa!
39. Am I going nuts? The sandwich is disappearing right before my eyes!
40. Chomp!

31. Tapil seawaktu anak-anak bekerja, hal-hal aneh mulai terjadi...
32. Nah! Meskipun pantang-panting, akhirnya lantainya bersih!
33. Hei! Kursi Paman Donal kenapa, nih? Sementat lalu kuralnya nggak terbuka panjang!
34. Nggak tahu! Kelihatannya seperti sesorang yang tidak bisa kita lihat sedang beraantall
35. Wah! Home run!
36. Waduh! TV-nya menyala sendiri! Kenapa, nih?
37. Oke! Tugasku selesai! Sekarang... hah?
38. Whoop!
39. Aku mau gila, ya? Sandwichnya menghilang tepas di depan mataku!
41. Guys! The weirdest thing just happened! My sandwich was snatched by...
42. That!
43. Whoa! A strange figure!
44. It's not alone! Look!
45. Two more of them! They must be responsible for reclining the chair and turning on the TV!
46. Great hok! There's another one having a leisurely soak in the tub!
47. This is bizarre! They look like old-fashioned American Indians!
48. Correction! Old-fashioned American Indian ghosts!
49. It's true! They look like the Indian village.
50. Hantu suku Indian Amerika kuno!
49. Obviously, the house has somehow become haunted!

50. Those spooks don't look dangerous! Seems like they just want to laze around!

51. We've got a first class mystery on our hands!

52. You said a mouthful! Come on! Let's get to the bottom of it!

53. There's no point telling Uncle Donald! What's up?

54. Right! To the library! We've gotta research the history of our property!

55. Shortly...

56. I think I found something! The Journal of Cornelius Coot, the founder of Duckburg!

57. When he first came here the whole area was wilderness! What's it say?

58. Well, he discovered an Indian tribe called the Skeezyfarinas that lived in these parts!

59. They were a hard-working, productive lot! Peaceful, too! They welcomed him as a brother!

56. Segera...

57. Aku rasa aku menemukan sesuatu! Jurnal Cornelius Phil, pendiri Kota Bebek!

58. Waktu dia pertama kali datang, seluruh daerah ini masih hutan! Apa katanya?

59. Mereka masyarakat pekerja keras! Buka damai, juga! Mereka menyambutnya sebagal saudara!
60. THE JOURNAL SAYS HE OFTEN GLIMPSED THEM IN THE VICINITY OF TWO DISTINCTIVE OAK TREES!

61. THOSE OAK TREES ARE THE ONES IN OUR YARD WHERE UNCA DONALD HAG HIS HAMMOCK!

62. OUR HOUSE MUST BE BUILT OVER AN OLD INDIAN BURIAL GROUND!

63. WHEN UNCA DONALD SENT THAT ELECTRIC SHOCK INTO THE HOUSE IT MUSTVE AWAKENED THE SPIRITS!

64. WE’VE GOT TO CONFRONT THOSE RESTLESS SPOOKS FACE-TO-FACE!

65. MAYBE WE CAN CONVINCE THEM TO HIT THE ROAD!

66. PERPUSTAKAAN

67. UNCA DONALD’S STILL DOWN FOR THE COUNT!

68. LET HIM SLUMBER! WE CAN HANDLE THIS OURSELVES!

69. ALL RIGHT, YOU GHOSTS!

70. WERE SORRY YOUR ETENAL REST WAS DISTURBED!

71. WE KNOW THIS HOUSE IS BUILT OVER YOUR OLD INDIAN BURIAL GROUND!

60. Pohon oka itu adalah pohon di halaman kita, lokasi tempat tidur gantung Paman Donal.

61. Pohon oka itu adalah pohon di halaman kita, lokasi tempat tidur gantung Paman Donal.

62. Rumah kita pasti dibangun di atas pekuburan Indian tua.

63. Ketika Paman Donal mengirim tegangan listrik ke dalam rumah, tegangan itu pasti akan membangunkan para arwah!

64. Kita harus menghadapi langsung para hantu tak kenal lelah itu!

65. Mungkin kita bisa meyakinkan mereka untuk segera pergi!

66. PERPUSTAKAAN

67. Paman Donal masih tidak bergerak!

68. Biarkan dia tidur! Kita bisa mengataesinya sendiri!

69. Baiklah, kalian para hantu!

70. Kami minta maaf, istirahat abadi kalian tengangul

71. Kami tahu, rumah ini dibangun di atas tanah pekuburan tua Indian kalian!
72. Tapi kami mohon, kepada kalian! Hentikan kegiatan menghantui yang sangat mengganggu ini dan pindahlah ke tempat yang lebih tenang! Kamu pasti bercanda!
73. Kamu pasti bercanda!
74. Tidak ada tempat yang lebih tenang dari ini!
75. Dan kalian salah! Rumah kalian tidak dibangun di atas pekuburan kami!
76. Tanah ini dulunya tempat kami bermalas-malasan!
77. Apa?
78. Setelah bekerja keras, kami ke sini untuk beristirahat, meluruskan kaki dan rileks!
79. Ini tempat yang paling tenang!
80. Dan karena kami terbangun, Itu yang tetap kami ingatkan!
81. Bahkan sekarang lebih enak lagi! Kami tidak akan ke mana-mana!
82. Ya! Kami tetap tinggal! Untuk selamanya!
83. Waduh! Aku rasa ini saatnya kita membangunkan Paman Donal dari istirahat abadinya!
101. SPIRITS
HAUNTING THIS QUaint
PLACE, YOU CANNOT FIGHT
THE PSYCHIC TIDE...

102. VANISH NOW
WITHOUT A TRACE,
FIND SOMEWHERE TO
RESIDE!

103. HEY! GUT IT
OUT!

104. NOOOO!

105. WHOOOSH!

106. THIS HOUSE
IS NOW CLEAN!

107. PHOOOM!

108. IT'S NOT CLEAN YET, BUT IT
SOON WILL BE!

109. WELL, WELL,
WELL! UNCA
DONALD'S FULL OF
PEP AND GUSTO!

110. HE'S ACTUALLY
DOING HOUSEWORKS!

111. BENAR! HANTU PEMALAS SUDAH DIUSIR DARI RUMAH!

112. DAN PENGARUH MEREKA TERHADAP PAMAN DONAL SUDAH HIllANG!
113. Be careful what you wish for, boys...
114. Rise and shine! It's Saturday and we have work to do!
115. Good! Good! Don't leave a speck of dirt in the windows! I'll straighten up the garage!
116. That's right! While I reorganize my address book, you scrub every inch of the house with toothbrushes!
118. Take care of the clutter in the attic! If you want me, I'll be washing the car!
119. Yes! Scour the driveway! I'll mow the lawn! We're a family! We do these things together!
120. We're done, Uncle Donald!
121. Done? Done?! Phew! Our work is never done! Start all over again!

120. Kami selesai, Paman Donald!
121. Selesai? Selesai?! Pekerjaan kita tidak pernah selesai! Mulai dari awal lagi!
122. Aku capek sekali! Keadaan lebih baik sebelumnya! Roh-roh itu ke mana, ya?
123. Ya! Kita harus mendatangkan kembali hantu-hantu itu!
124. Paman Donald yang pemelas jauh lebih baik daripada orang yang gila keberian ini!

125. Come on! If the presence of those sluggish spirits really can restore Uncle Donald, we have to find them!
126. Right! Let's drop by Gyro's workshop! I'll bet he can help us!

127. The boys pour out their woes to the inventor and in no time at all...
128. There! This should help you to locate your lethargic ectoplasmic entities!
129. How does it work?
130. Merely point my spook detector at a given area! The alarm will sound if otherworldly beings are present!

127. Anak-anak menceritakan keluhannya kepada el penemu dan dalam waktu singkat...
128. Nah! Ini akan mencolong kalian menemukan jumlah kelesuan ektoplasm kalian!
129. Bagaimana cara kerjanyanya?
131. NOW WHAT?
32. WE TAKE THE DOOCHERY TO THE MOST RELAXING PLACES IN THE PUCKBURG! WHERE ELSE WOULD THE GHOSTS GO?
133. THE PARK IS PRETTY RELAXING! ANY ACTION FROM THE DETECTOR?
34. NOT A PEEP! THEY'RE NOT HERE!

135. THE ORCHESTRA'S RENDITION OF BRAHM'S LULLABY IS AWFULLY SOOTHING! ANY SIGN?
136. NOPE! THE SPIRITS AREN'T LOUNGING AROUND THE AMPHITHEATER!
137. YOU CAN'T BEAT THE OLD FISHING HOLE FOR TRANQUILITY!
38. THIS CONTRACTION IS AS SILENT AS THE SPHINX! IT'S ANOTHER DEAD END!

139. SIGHS! LOOKS LIKE WE'LL NEVER FIND THEM! MIGHT AS WELL GIVE UP!
140. HOLD IT! THE SPOOK DETECTOR! IT'S GOING WILD!
141. BEEP! BEEP! BEEP!
42. IF THAT GIZMO'S ON THE LEVEL, THE GHOSTS ARE IN THERE!
143. A REST HOME! MAKES PERFECT SENSE!

139. Aduh! Kali ini kita masih belum menemukan hantu! Kemungkinan hantu sudah kabur!
140. Tunggu dulu Detektor Hantu! Gerakanannya lari!
145. Itu mereka!
146. Tidak heran mereka senang di sini! Tempat ini sunyi dan tenang sekali!

147. Lihat! Itu para bebek yang menyebabkan kita terus-menerus mengalah dari rumah mereka!
148. Kami membuat kesalahan besar! Kami ingin kalian kembali!

149. Kalian memberi pengaruh ketenangan pada Paman Donald! Kami sudah nggak tahan dengan jalan hidupnya yang sangat energik!
150. Ikutilah dengan kami! Kami putus asa!

151. Tapi tempo hidup di Padang Rumput Tiduh sangat sempurna! Tidak ada yang terburu-buru! Tidak ada teriakan! Tidak ada marah! Kami senang di tempat ini!

152. Terima kasih, tapi nggak, deh! Kami memilih untuk tetap tinggalkan!
153. Hu-uh!
154. Maka...
155. Aku merasa muak! Kita harus pulang ke rumah kagada pemberi tugas yang gila dan berenergi super itu!
156. Tapi, apa yang bisa kita lakukan? Kita terikat berauman ya!

157. Tunghulu! Kalau lihat apa yang kulihat? Katakan padaku bahwa aku tidak berhalusinasi!

158. UNICA DONALD! YOU'RE LAZING AROUND AGAIN! BUT HOW CAN THAT BE? THE SPIRITS WOULDN'T COME BACK TO VISIT US!
159. WELL, MY BURST OF ENERGY MUST'VE JUST BEEN A FLUKE!

160. YOU MEAN YOU HAD A PSYCHOSOMATIC EPISODE?
161. YEP! I DON'T THINK THOSE SPIRITS HAD ANYTHING TO DO WITH MY LAZY PERSONALITY!

160. Maksudnya, Paman mengalami gejala stres mental saja?
161. Ya! Kurasaa para roh itu tidak ada hubungannya dengan kepribadian malaiku!
162. DOING NOTHING IS JUST MY NATURAL STATE, I GUESS!

163. YIPPEE! THE OLD UNCA DONALD IS BACK!

164. BACK WHERE HE BELONGS!

165. SNOOZING IN THE HAMMOCK!

166. DONALD DUCK

167. THE END
