CHAPTER V

CONCLUSION AND SUGGESTION

The conclusion is described based on the formulated research questions in the first chapter, whereas the suggestion is intended to give information to the next researchers who are interested in analyzing data using the same theory. After analyzing the research findings and discussing them, the researcher draws the conclusion and also gives suggestion to next researchers who are interested in doing similar research. The explanation is as follow.

5.1 Conclusion

The conclusion of this research can be formulated based on the research questions in the previous chapter.

The purposes of the researcher conducts the Translation Methods are to know what is the kind of translation method used in her translation work of *The Mona Mousa Code by Geronimo Stilton* into *Kode Monakusa by Amy Liem* story book.

The researcher discussed the translation method from Newmark such as Word-for-word Translation, Literal Translation, Faithful Translation, and Semantic Translation,
